Introducing Spodegreen Data Centre

Invitation to the first public consultation event:

Wednesday 30th September 2026 | 4pm-8pm

High Legh Village Hall, West Lane, Knutsford, WA16 6LR

Innova is proposing to develop a data centre campus on land off Lymm Road, to the north of the M56 and west of the A556, WA14 4TP, and is seeking feedback from the public on our proposals at this early stage. This event will provide the initial plans for the proposed development and Innova will hold a second event later in 2026 to show how the design has evolved after feedback from residents.

Local benefits

- **Improved local connectivity and fibre internet infrastructure**, creating long-term internet resilience to the area.
- Delivering **on-site jobs during construction** and operational periods.
- Innova is seeking to work with colleges and universities in the region to **develop apprenticeship and training opportunities**.
- Using landscaping and ecological measures to **boost biodiversity**.
- Seeking the opportunity for **heat reuse**.
- Providing a **Community Benefit Fund to support not-for-profit, community-led projects** that deliver social, economic and environmental benefits.

Visit the dedicated public consultation website: **www.spodegreendatacentre.co.uk**. On the website, you can find information about our draft proposals and provide feedback to the project team online.
